

MARVELLOUS MEASURES

WHAT TO DO

- Complete the table opposite, using metric measures. Check the ones you can. Think of what you would use to measure with for those you can't check.

- Look at the units you have used. Which ones do you often use imperial units for and what are these units? Write your answers on the back of this sheet.

What to measure	Unit	Equipment	My measurement
Length of your bed			
Your height			
Width of your reading book			
Distance from home to school			
Weight of a tin of beans			
Length of your little finger			
Amount in a glass of water			
Rain that falls in one week			

TO PARENTS OR CARERS

This activity is for your child to do on his or her own. It helps practise work already covered in school.

This activity will help your child to

- think about the right units and equipment to use to measure different everyday things
- practise measuring.
