

YOU'VE BEEN FRAMED!

WHAT TO DO

- Look at these pictures. Imagine you are going to frame them.
- Measure the pictures with a ruler and work out how much glass each picture needs. Write your answer in the table.
- Work out how much wood is needed for each frame? Write your answer in the table.

- If the wood for frames costs 20p per cm and the glass is 15p per square centimetre, how much will framing each picture cost in total? Write your answers on the back of this sheet.

(A)

(B)

(C)

(D)

Picture	Length of wood for frame (in cms)	Glass needed (in cm ²)

TO PARENTS OR CARERS

This activity is for your child to do on his or her own. It helps practise work already covered in school.

This activity will help your child to

- work out the perimeter and area of everyday objects
- relate their use of maths to real life.
